Meat Eaters' Backache

Every Picture Tells a Story.

Meat lovers are apt to have backaches and rheumatic attacks. Unless you do heavy work and get lots of fresh air, don't eat too much meat. It's rich in nitrogen and helps to form uric acid—a solid poison that irritates the nerves, damages the kidneys and often causes dropsy, gravel and urinary disorders. Doan's Kidney Pills help weak kidneys to throw off uric acid. Thousands recommend Doan's for backache.

Here's Washington Proof:

A. J. Bargagni, city fireman, 212 K St. N. E., says: "My back gave me a lot of trouble. I could hardly stoop to put on my shoes in the morning, because sharp pains caught me in the small of my back. The action of the kidneys was too frequent and the kidney secretions were unnatural. Two boxes of Doan's Kidney Pills, procured from P. A. Ladd's Drug Store, cured me."

To Make Your Hair Look Naturally Curly

After shaking the hair down and brushing it out, apply a little liquid astringent with clean tooth brush and then roll the hair in curlers. This produces as beautiful curls and waves as you could wish for, perfectly natural in appearance, and they will last a long time. The full effect is secured within three hours, though some prefer to keep the hair done up over night.

A few ounces of liquid astringent—which can of course be had at any drug store—will last for weeks, so it is quite economical to use. It also serves as an excellent dressing, giving the hair a delightful gloss when the hair is combed out. It will be as fluffy as though it had just been shampooed.—Adv.
